Did you Know?

Cedaredge Dental Clinic is the ONLY dental clinic on the entire Western Slope offering Fast-braces®? Traditional braces take two to three years to straighten the teeth, while Fastbraces® from a cosmetic dentist can do it in as little as 3-12 months. Why are they so much faster? Because unlike braces,

Before

After

they move both the crown and root of your tooth at the same time. They move your teeth to their final position in the most direct way possible, saving you months, even years of time in the process. Want more info? **Give Dr. Stein a call at 970-856-6168 or visit cedaredgedentalclinic.com.** The practice is also accepting new patients for general dentistry!
